Media Park, Building Gateway C, Koos Postemalaan 2, 1217 ZC Hilversum, The Netherlands

A compact and technically comprehensive set that is suitable for broadcasts in locations with limited available space. This set is equipped with a mixer with 12 faders. The technical module can stand separately in a different location.

The OBS1 is expandable with up to 6 microphones for the guests, wireless reporter systems, headsets, producer and radio director positions, visual radio cameras, lighting and a separate PA system. In addition, this equipment is very easy to integrate into a set piece due to its compact shape. This set is often used in an interview set-up where the guests are seated at a separate table with the host.
